

Software Development Engineer Internship (Summer 2018, Madrid)

We are looking for outstanding software engineer interns that will embody Amazon's motto: Work hard, have fun and make history. We expect you have strong technical, research and analytical skills and are very eager to learn and to contribute to a highly skilled development team. We strongly value your hard work and obsession to solve complex problems on behalf of Amazon customers. You will be part of an international team of Amazon software engineers and you will help them create complex tools in several different programming languages that will help improve the quality of Amazon's catalog. You'll create professional quality software by applying software engineering best practices, while being exposed to cutting edge technologies around big data and machine learning. Your work will improve the experience of millions of customers using Amazon daily in Europe. You will have the chance to commence a very successful career in one of the most innovative companies in the world. This position will be based in Madrid, Spain.

Basic Qualifications

- Currently enrolled in a Computer Science/Computer Engineering program (or related technical discipline)
- Experience with object-oriented design and coding skills C++, Java or C#)
- Strong fundamentals in problem solving, algorithm design and complexity analysis
- Strong personal interest in learning, researching, and creating new technologies
- Strong attention to details, inventive, able to work in a fast-paced environment

Preferred Qualifications

- Knowledge of programming languages regularly used in machine learning and data science environments, like Python or T
- Knowledge of software engineering practices & best practices for the full software development life cycle, including coding standards, code reviews, source control management, build processes, testing, and operations
- Clear, professional communication skills able to contribute to team discussions, knowing when to contribute, when to listen, and when to ask questions

Please, send your CV in English to liagos@amazon.com .
