

# JPMORGAN CHASE & CO.

## 2019 Global Finance & Business Management Analyst Program - Full-time - Bournemouth & London

If you like analyzing results and using data to drive decisions, then we have a role for you. The function of Global Finance & Business Management is critical to all facets of the business, dedicated to continually making our business better – strategically, financially and operationally.

You'll collaborate with our top-tier professionals to influence and shape critical decisions and initiatives that support our businesses across the firm. You'll have the opportunity to make meaningful contributions while developing your professional expertise in a dynamic team environment.

Working here means joining a collaborative, supportive team. We want your diverse perspective to help us innovate solutions for our internal and external stakeholders. We'll give you what you need to succeed including training, mentoring, access to senior leaders and projects that engage all your skills.

### What You Can Expect

This three-year rotational program delivers in-depth industry training, mentorship and hands-on experience.

As an important member of the finance team you will rotate across the following roles in our Corporate or Line of Business groups.

- **Business Management** - Act as a trusted advisor to business and group heads by identifying, escalating and mitigating business risks and optimizing business performance by driving key initiatives. Business Management are also responsible for helping to drive key initiatives that optimize business performance.
- **Controller** - Responsible for ensuring the overall integrity and validity of the financial statements and controls over the transaction cycle; performing critical reporting and controls functions for the organization, including legal entity, financial and regulatory, as well as product valuation; and provide this expertise to strategic and ongoing technology and operational process improvement initiatives. The different types of Controller roles consist of Legal Entity Controller, Financial Controller, Product Controller, Valuation

Controller, Treasury Controller, Investor Services Controller, Global Controller, and Bank Controller.

- **Financial Analysis** - Create meaningful analysis and reporting in support of our businesses. Coordinate with partners across the firm to provide financial and strategic analysis, creation, oversight and coordination of financial planning and forecasting.
- **Program Management** - Contribute to programs that are large scale and comprised of multiple projects and workstreams. Initiatives drive cross line of business or firm-wide agendas for implementation of new regulations, standards or policies.
- **Regulatory Reporting & Capital Policy** - Responsible for the preparation and submission of reporting to the UK regulatory bodies, monitoring of regulatory capital requirements, the interpretation, application and implementation of rules and policies, in parallel to providing guidance to the business

Throughout the rotational program, you will also have the opportunity to study and complete your Chartered Institute of Management Accountants (CIMA) qualification. This is mandatory across the program.

## About You

We are looking for highly motivated individuals with a passion for producing financial analyses to help drive strategic business decisions and ensure the company is capable of navigating all types of market environments, while maintaining a fortress balance sheet. The Global Finance & Business Management function within JPMorgan Chase & Co is a dynamic organization that plays a critical role, particularly as regulatory and capital requirements continue to impact the way we do business

## Key skills and interests include:

- A well-rounded academic background is important — a 2:1 Bachelor's degree (or equivalent) in your undergraduate degree is preferred; you should be in your final year of study and be available to start on the Full-time Graduate Program in September 2019.
- A passion for data analysis and accounting.
- Ability to thrive in a dynamic and collaborative work environment.
- Basic understanding of financial statements, accounting procedures, internal and external reporting, and variance analysis.
- A well-rounded academic background with an interest in financial management.
- Excellent leadership and interpersonal skills.
- Excel, PowerPoint and Word proficiency.
- Leadership experience in school or community organization.

But beyond that, what we're most interested in are the things that make you, you: the personal qualities, outside interests and achievements beyond academia that demonstrate the kind of person you are and the difference you could bring to the team.

**Application Deadline: 25 November, 2018**
