

Quality Engineer (m/f/d) in Laupheim

Orizon GmbH is your capable partner when it comes to standing out from the crowd on the labour market. With our individual advice you will find the job that suits you best. Being among the top ten German HR service providers, our company's range of services includes the personnel secondment and placement of both skilled workers and executives of all professional fields. Orizon's "Aviation" unit is the specialist for personnel secondment in the aerospace sector and – thanks to its excellent industry experience – offers you interesting perspectives in this field. You have an appropriate qualification and are interested in working in the aerospace sector? Or you already have gained experience in aerospace? Then, we are exactly the right partner for you.

Your responsibilities:

You are acting as a Quality Engineer (m/f/d) for our prestigious client Diehl Aviation Laupheim GmbH in Laupheim.

- Monitoring and continuous improvement of quality assurance
- Development of quality concepts for new projects and the series
- Monitoring and optimization of quality processes
- Support and implementation of customer FAI's
- Complaint Management – Coordination of quality issues with the customer

Your profile:

- Completed studies in engineering, aerospace, industrial engineering or business administration or comparable
- First experience in project management and quality management
- Good knowledge in MS Office and first user experience in SAP
- Good German and fluent English, spoken and written
