2nd International Symposium on the Education in Mechanisms and Machine Science ISEMMS Madrid, Spain http://portal.uc3m.es/portal/page/portal/congresos_jornadas/isemms17	Cristina Castejon castejon@ing.uc3m.es	November 23-24, 2017
---	--	---------------------------------

Dear Organizers and Participants of IFToMM sponsored conference **ISEMMS 2017**

I am very sorry not be there with you as I originally planned with my participation to **ISEMMS 2017** event. It is an honour for me, as IFToMM President, to address these few words of welcome and wishes to the participants for a fruitful conference time during this conference to **ISEMMS 2017**, that is organized in cooperation by IFToMM MO Spain.

This conference is an important conference forum for discussing specific topics of the IFToMM activity, even with the aim to promote IFToMM and MMS not only by involved MO and PC. The IFToMM patronage of this conference event has a particular significance for the fact that this conference event has been organized successfully with the typical IFToMM atmosphere in order to provide suitable environment for enhancing and starting collaborations and disseminating last advances in MMS and in specific fields, also with the hope to have more MOs (Member Organizations) in IFToMM

I congratulate the organizers and their teams for the very successful organization of this to **ISEMMS 2017!**

IFToMM is particularly careful to aspects both of scientific and social activity as intended to promote both MMS disciplines and IFToMM Community. I am sure that all the participants will contribute successfully to the abovementioned goals by sharing studies and results with other colleagues not only from the IFToMM Community. Therefore, I thank the participants and organizers for having supported the IFToMM traditional high-quality standard for this conference with your active participation.

Another important event will be the 2019 IFToMM World Congress (www.iftomm2019.com) that will be held in Krakow, Poland in June 2019 as 50th Jubilee IFToMM anniversary where we hope to have a large participation of colleagues from all around the world, even from those countries that have not yet IFToMM Member Organizations. There we could also have more advances on MMS and therefore this is to invite all you participants to join the IFToMM World Congress 2019 too.

I wish you a wonderful time at this IFToMM sponsored conference event, both from technical and social viewpoints

prof. Marco Ceccarelli
President of IFToMM (2016-2019)

Cassino, 6 November 2017
